DETAILED ACTION

Claim Objections

1. Claims 1, 4,5,6, 7,8 and 12 are objected to because of the following informalities:

In claims 1, 4, 6, 7, 12, line 8, claim 5, line 9, claim 8, line 10 the recitation "connection point" is unclear as if the connection point being referencing to the connection point between the AV clips or ranges.

In claim 8, line 1, after "program" should be inserted -- executed by a computer -
-. Appropriate correction is required.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 12-13 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 12-13 direct to information stored on a medium. Since the information do not provide any functional interrelationship to the medium to control and access the information, or impart to any software and hardware structural components to provide certain function that is processed by a computer, the information do not make them statutory. See MPEP 2100.

Allowable Subject Matter

3. Claims 1-11 are allowed.

Conclusion

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
